BLAIRMORE ALBERTA

An Old Treasure Unearthed

To have abandoned hope of ever getting money collected on a mortgage, and then to receive the intelligence after more than twenty years that the sum of \$1000 had been repaid in the bank all these anxious waiting for the lawful claimant and with accumulated interest sufficient to bring the sum up to \$3400 is the experience which Mr. Frank Marriage has recently enjoyed.

Property in Calgary was mortgaged by the late John Scott, formerly of Calgary, and made out in Mr. Marriage's favor. Marriage left Calgary in 1890, leaving the matter in the hands of Solicitor T. Ede, then of Calgary, who was to make an effort to collect the amount. Because Mr. Ede had expressed a grave doubt as to ever being able to collect, and because the communication which Mr. Ede sent to Mr. Marriage when the collection was finally made went astray, the latter concluded that the mortgage was valueless and could only be placed among his bad debts.

After years of unsuccessful advertising, and being unable to locate the man Marriage, Mr. Ede obtained the services of a young solicitor of Blaimore, Mr. L. H. Putnam, to more vigorously assist him in connection with the matter. After three years of work, an application was made in November last to have Mr. Ede's old client Marriage declared dead by order of court and his estate administered and the money paid through the court. Between the time of the application and the taking out of the order, however, Mr. Ede received a communication from James Anderson, of Burnaby

Lake, B.C., a client of Mr. Ede's in the year 1888, at which time the latter had an extensive and remunerative practice in Calgary together with the police magistracy over the whole of the jurisdiction of the Northwest Territories, Judge Roule and himself being the only jurists in the territories at that time. Mr. Anderson, while going through a bunch of old papers contained in a trunk, came across a letter which he had received from Marriage about sixteen years previously, in which was an address in London, England. With this clue, communication was taken up with Scotland Yard, resulting in the location of a sister of Mr. Ede's client, which ultimately resulted in locating his prodigal client in a remote farming community on the Pacific coast and having him come to Blaimore so that necessary identity could be proven and an application made to the court to have the money paid out. After remaining in Blaimore several days, Mr. Marriage, in company with solicitors Ede and Putnam, went to Calgary, where an application was made by Mr. Putnam, acting on their behalf, before Mr. Justice Stewart, who on Monday afternoon issued an order that the money be paid from the Bank of Montreal to the order of Frank Marriage and his duly authorized attorney, and after payment of the solicitor's charges the balance to be given to the rightful owner.

On Wednesday morning, after considerable delay, the Bank of Montreal disbursed the money in accordance with Mr. Justice Stewart's order.

Mr. Marriage left for the coast on Wednesday evening, while Messrs. Ede and Putnam returned home to Blaimore.

Cowley Happenings

(Received too late for last issue.)

Cowley, March 27th, 1916.—We are glad to report that Mrs. Joe Morgan, who has been ill for some time, is so much improved that she is expected home shortly.

R. Swift is busy these days landing recruits for the 192nd.

A number of members of the Home Guards have arrived home for a month's change.

The farmers are taking over the business of Mr. Howie. Mr. Howie will still be retained as manager.

A nice snow storm once in a while is keeping the ground moist for the seed that is already being sown.

The River baseball fans held a very successful dance on Friday night, which netted somewhere around \$38.00.

Several Cowleyites, who have been spending the winter abroad, have returned to home and work again, looking and feeling fine.

On Saturday, April 8th, a donation of supplies for the Ogden convalescent home for returned soldiers will be gathered up by the Women's Institute committee.

J. Connors, of the North Fork, had a big runaway recently. His four-horse team got loose, breaking the tongue and several other parts of the wagon. Fortunately no one was hurt.

Miss Nellie McWilliams has taken a turn for the better, after a long siege of typhoid fever. Though still unconscious at the beginning of the week, she was pronounced out of danger.

Mrs. W. T. Eddy and daughter leave for Calgary on Thursday night, where they will take up their abode for the present. Their ranch has been taken over by the Doukhobors, who intend putting on engines and breaking up the land that has so long grown hay and feeding it to wheat. We wish Mrs. Eddy and daughter God speed, and may they make many friends in their new home.

The Cowley Women's Institute met in the Masonic hall on Saturday, March 25th, to dispose of their month's work. A large gathering of ladies were present, as well as a number of children, making the meeting a most enjoyable one and the day one to be remembered in the line of the Red Cross work. Over \$125 was taken in, beside several pairs of socks. The drawing for the cushion given by a member was done by Miss May Robinson, and Mrs. Milton

Do It Today!

"Do it today," I hear Kitchener say,
So come along, comrades, no further delay.
The call is still urgent, the victory's not won;
So jump into khaki and help fight the Hun.

Hun.
Do it today. Don't heed what they say—
The slakers and growlers who stand in your way.
Let everything go, and let all the world know
That the boys of Alberta no white feathers show.

Do it today. Sign on right away.
Let this be to you a red-letter day.
There are places still vacant. It's now up to you
To help swell the ranks of the "ONE NINETY-TWO."

Sells Land in Arctic

Government Disposes of 20 Acres on Bylot Island to Gold Syndicate

The Dominion government is doing some real estate business in the Arctic seas. It has sold for one dollar per acre some twenty acres of land on Bylot Island in Hudson Bay, about latitude 72 degrees, 53 minutes, to the Arctic Gold Exploration Syndicate, Ltd., of Toronto. The land is, of course, yet unexplored, and the sale is subject to the proviso that the syndicate must later determine the boundaries. Apparently the syndicate has found traces of gold in the far north.

A Great Asset

According to Hon. Duncan Marshall, minister of agriculture in Alberta, the pedigree bull "Director," formerly of the Rothschild herd in England, and now in the western province, is the finest bull in the country. The minister says he is more than a credit to the animal, which is quite to his credit. Price cattle are a great asset to any province—Montreal Gazette.

Germany's Threat

THE FIRST TASTE

Acquired the Habit When a Boy

If parents realized the fact that tea and coffee contain a drug—caffeine—which is especially harmful to children, they would doubtless hesitate before giving them tea or coffee to drink.

"When I was a child in my mother's arms and first began to nibble things at the table, Mother used to give me sips of coffee." And I contracted the coffee habit early.

"I continued to use coffee until I was 27, and when I left office work I began to have nervous spells. Especially after breakfast I was so nervous I could scarcely attend to my correspondence." (Tea produces about the same ill effects as coffee, because they both contain the drug, caffeine.)

"At last, after having had coffee for supper, I could hardly sleep, and on rising in the morning would feel weak and nervous."

"A friend persuaded me to try Postum."

"I can now get good sleep, am free from nervousness, and headache. I recommend Postum." Name given by Canadian Postum Co., Windsor, Ont. Postum comes in two forms: Postum Cereal—the original formula—will be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and with cream and sugar, makes a delicious beverage instantly. 9c and 50c tins.

Both forms are equally delicious and cost about the same per cup. "There's a Reason" why I should start my "yall" now. Be second year will understand an Ah' Wot! Do third party nobody will understand."

The German Spy System

Oaths of Neutrality Are Broken as Freely as Oaths of Naturalization

The revelations cable from Sydney with regard to the German professors who acted as spies in Australia give a very good indication of the thoroughness of the German espionage system. When war broke out the congress of the British Association for the Advancement of Science was sitting in Australia. The German professors attended the congress. They were enemy subjects in Australia, but they were treated with the customary British consideration and leniency. They posed as "international scientists," and to avoid internment, all took an oath of neutrality, two with apparent willingness, and two after some hesitation. It is now shown conclusively that by their cleanness the Australian government liberated at least three spies, who spent their leisure in Australia with military information which they endeavored to forward or carry to Germany. One of them was arrested in England has been identified with other acts of espionage which entitle him to be designated as a professional spy. Such incidents have been multiplied in Britain and in France with grave consequences for there is no doubt that, in spite of occasional captures, Germany has been getting good value for her spies for her espionage system. Oaths of neutrality are broken as freely by Germans as oaths of naturalization, both in Canada and in the United States. The German government as a means by which good Germans may silence suspicion while serving their country abroad. The Australian disclosures naturally raise the question of the future treatment of Germans who are in a position to gather and forward information of value to the enemy. It is considered that German professors who were honored delegates among British scientists are of no value, what German can be expected to trust upon a worthless parole?

More Than a Third of Soldiers Asign Part Pay and About a Fourth

The monthly payments of assigned pay or separation allowances to relatives or dependents of the men under arms now aggregate more than \$1,000,000. More than 80,000 cheques are made out each month by the branch dealing with this part of the work. Over one-third of the soldiers who have enlisted are now giving part of their pay to friends or relatives at home and about one-quarter of the total force, representing approximately the married men, are on some form of separation allowances. It is interesting to note that the proportion of the total force on such allowances is considerably larger among the recruits of the past few months than it was among the men who were overseas at first. This is accounted for on the ground that a considerably larger proportion of the new recruits are Canadian-born, and have dependents or relatives in Canada. With the first and second months a large percentage was composed of unmarried men who were born in Great Britain and who had no family ties or dependents in this country.

Co-operation

After all there was profound philosophy in the light remark of the Irishman to his companion as they were travelling on foot and came to a hot house, he said "let me tell you to Boston."

"Come along, Mike," said Pat, "I'm only five miles apiece."

If we could as farmers, learn this great lesson of co-operation and co-operation with one another in many of the difficult problems that confront us, and which we are unable to solve by trying to dispose of them singly and alone, we would find that the path of progress is not so difficult as it is made to appear.

"What we need is local leadership," says one to say, "Come along, it's only five miles apiece, and I am just entering upon this new view of life. It is a field of wonderful possibilities and benefits."

New Paper Substances

The U. S. Bureau of Plant Industry has published a bulletin describing what appears to be a valuable new source of paper-making material, viz., the grass, *Stylosanthes macrantha* (Hornem.)

This is but one of several possible paper-making plants which the bureau has under investigation. Year by year the demand for materials for other than wood and rags capable of yielding paper on a commercial scale becomes more urgent. Wood is now used in the United States for pulp manufacture to the amount of 4,500,000 cords a year, and the cost of pulpwood is steadily rising.

Disfigured Soldiers Have Faces Remade

Noted British Sculptor is Putting His Genius to Unique Use

Derwent Wood, the distinguished British sculptor, who enlisted as a private in the Army Medical Corps at the beginning of the war, is now turning his talent to a unique use. All his leisure time is at present employed in re-creating the faces of the men who have been disfigured by wounds in battle. These include mouths, jaws, and even eyes. He has all of which is made to move naturally.

He has just finished remaking a nose for a soldier which was blown away below the bridge. His addition, which he prepared of electrical-treated metal, is so perfect that where it is joined is absolutely imperceptible, and the patient has regained his sense of smell.

Wood is now giving up most of his time to work, and is able to treat ten cases daily. Surgeons who never thought that a sculptor's art could be of service to the world are now absolutely amazed at the remarkable results Wood has obtained.

Miller's Worm Powders can do no injury to the most delicate child. Any child, infant or in the state of adolescence, who is troubled with worms, takes this preparation without a qualm of the stomach, and will find it in a few days, and full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

A Year Without Saloons The Most Prosperous in the History of the City

After going a year without saloons the city of Des Moines makes this record of the most prosperous year in its history. The city of Des Moines, Iowa, has been without saloons for a year, and the result has been a record of prosperity.

Des Moines does not need to rely on general impression, however. The record of bank clearances is sufficient proof of this. In the year 1916, the city of Des Moines, Iowa, has been without saloons for a year, and the result has been a record of prosperity.

England's Public Record Offices

Twenty-five Miles of Shelves Full of Historical Records.

Unknown to the millions who pass through the city of London every week a work of unparalleled magnitude at what is known as the public record office in Chancery Lane, has been going on for a number of years. In this office, there are twenty-five miles of shelves, all full of historical material, going back through the centuries as far as "Domesday Book."

It contains a record of a year to keep up the record office, the keeper of the records being the master of the rolls. The office was established in the public record office in 1838, and the records were taken from the tower, the chapter house, Westminster, the royal chapel, and elsewhere. Ever since that time the office has been constantly receiving accession from the law courts, the government departments, and from various other quarters.

All sorts of records are kept, legal, historical, genealogical, statistical, and so on. The records are kept in the office that antiquarian research of almost every kind can be made. There you will find the records of the state paper office in Whitehall, the records of the Admiralty, the records of the War Office, the records of the Home Office, the records of the Foreign Office, Ten Commandments Of Wisdom

And Wisdom spoke these words, saying, "I am Wisdom, thy savior, who shall bring you out of the land of dependence into the land of pleasure."

First—Thou shalt trade at home. Thou shalt not make any purchase elsewhere of anything that is at home, that can be bought through a local merchant, and this includeth all things.

Second—Thou shalt not bow down to the mail order house or outside business concerns, nor serve them, for thy home merchant is thy neighbor, paying his taxes at home and contributing to your charities; and showing bargains unto thousands of them that visit him and trade at his store.

Third—Thou shalt not regard the bargains of thy home merchant too lightly, for they are sincere, and they shall not purchase anything that thou hast not seen.

Fourth—Remember on thy purchase day to trade at home. Six days shalt thou labor and save all thy money, and thou art ready to spend thy money and

in Trade at Home. For in six days has thy servant prepared his stock, making things ready that thou mayest see the bargains and take advantage of them, and thou shalt not be disappointed.

Fifth—Trade with thy home merchant that thy money may last long in these long days when economy is wisdom.

Sixth—Thou shalt trade at home.

Seventh—Thou shalt not patronize a mail order house, or any other outside house.

Eighth—Thou wilt thou always be satisfied.

Ninth—Thou shalt bear true witness to thy home merchant's bargains.

Tenth—Thou shalt not covet thy neighbor's house, nor his furniture, nor his furnishings, nor his estates, nor anything that is thy neighbor's, for he purchased everything at home, and thou wilt be satisfied also if thou Trade at Home.

Detail of Proposed Colonies For Soldiers

Calgary, April 6.—Mr. J. S. Dennis, assistant to the president, C.P.R., on his return from a month's trip to Montreal and New York, where he was attending the scheme announced by Lord Shaftesbury of returned veterans' colonies, said:

"The decision of Lord Shaftesbury to provide through the Department of National Resources of the Canadian Pacific railway farm homes for one returned soldier is a further proof, if any were needed, of his willingness at all times to devote his great energy and ability, and the resources of the company, to the solution of the problems facing Canada as part of the Empire."

"Without doubt, one of the most serious matters we now have to deal with is the question of taking care of the men who have fought the battles of the Empire when the war is over. Their military experience will have unsettled and unsettled many of them for a return to ordinary clerical and sedentary life, and something further will have to be done to enable them to obtain outside employment. The problem is further complicated by the fact that, without doubt, a very large number of men, who will be mustered out from the British army will want to emigrate to the overseas Dominions and provision must be made to properly take care of them and colonize them in suitable employment."

"The extent and magnitude of the work of preparing one thousand farms will be realized when it is noted that it involves building 1000 houses, building 1000 barns, constructing 1300 miles of fence, digging 1000 wells, breaking and cultivating 50,000 acres, the buildings will require about twenty million feet of lumber to erect. The preparation of these farms will entail an expenditure of about three and a half million dollars."

"Over thousand farms will, of course, provide for an extremely small proportion of returned soldiers who will want to obtain farm homes. However the Canadian Pacific railway has led the way in trying to solve the pressing and troublesome question and no doubt before long the Dominion government will announce its general scheme."

"The enlistment of the 250,000 additional men called for by the government, will, of course, double the number to be taken care of after the war is over, and also cause a serious problem. The modern provinces have responded nobly to the call of the Empire in enlisting men to fight our battles, and already there is a serious shortage of labor of all kinds, due to this enlistment. In the effort to meet this shortage the Dominion government is now advertising in some 4,000 papers in the United States for 50,000 laborers to come west and help put in the crop this spring. They find that there is no chance of getting this number of men and have announced that from three to five thousand is the greatest number that can be obtained."

"The recognition of this shortage of labor by the Department of the Interior and the efforts they are making to meet the situation by bringing men from the United States is a contradiction of the statement made at a meeting in Montreal a short time ago by General Sir Sam Hughes, minister of militia, that the enlistment of men in the west was not causing any shortage of labor, and is proof, if any were needed, of the soundness of the policy of recruiting advocated by Lord Shaftesbury at the same meeting. Every true Canadian realizes that Canada must ultimately send her own men and spend her last dollar to enable the Empire and her allies to bring the war to a victorious termination, but why enlist men before they can be used."

"It is now recognized that under the most favorable circumstances we will see the end of the year before all the men now enlisted can be transported across the Atlantic, and after that date, at most, 10,000 men a month can be sent forward. Many of the battalions now authorized are very much below their full quota of men. Why then go on authorizing additional battalions and removing men from the useful employment of helping feed the empire or supply it with munitions until they can be utilized in the fighting line?"

"Of the men already enlisted, western Canada has provided some more than its share on the basis of population. As western Canadians are so proud of that fact, but why drive a willing horse off its feet, particularly when its energies can be utilized in the meantime to such great advantage in other ways, and it can be kept in good condition for the time when its full strength can be properly applied in the supreme crisis."

Barbour-Beck Nuptials

Announcements have been received of the marriage of Miss Lulu Beck and Mr. Al. Barbour on March 25th. The following account of the wedding is from a Montreal paper, dated March 31st:

"It became known here today that one of the players on the Rosebuds, the Portland club, of the Pacific Coast Hockey league, became a benedict while here with his club for the Stanley cup series."

The marriage was quietly celebrated on Saturday last, March 25, at the residence of the bride's aunt, Mrs. S. Lamert, of Lulu Blanche, daughter of Mr. and Mrs. Alexander Beck, of Coleman, Alta., to James Alfred Barbour, Ph.D., son of Mrs. M. E. Barbour of Winnipeg, and member of the Portland Rosebuds. Mr. and Mrs. Barbour will visit New York, Chicago and other American cities on their way to their future home in Portland, Ore.

The Kaiser's Raw Recruits

Mr. Frederick Schwed, an American who has just returned from the capital of the warring nations to New York, makes some astonishing disclosures about the new German recruits in a long article which he has specially written for the World.

The raw men that England is now pouring into the hopper (says Mr. Schwed) are as sturdy, vigorous, and fine specimens as her first volunteers, and perhaps more numerous.

But in Berlin it cannot exaggerate the depression among the people when the raw drafts of today march (although this flatters their progress) through the streets. Germany is at the bottom of her glass for men. These are the drags of a people. The thrice rejected, the unfit, the sweepings of a race wall pitifully past to be made into soldiers.

I have always had an abiding respect for the German "regiment" and was very polite whenever I met him, but this portion of the imperial army would have no terrors in a dark alley. When I say that the village idiot would have fitted well into their ranks, and that it was doubtful whether the entire detachment ever reached the barracks without meeting salts, you can rather something of the impression that the Kaiser's new fighters made.

Biggest Check On Record

New York, April 6.—A check for slightly more than \$70,700,000, said to be the largest ever drawn, passed through the New York clearing house today. It was made by J. P. Morgan & Co. on a local bank to the order of the Canadian government in payment of \$75,000,000, par value, five per cent bonds recently purchased by a syndicate of bankers.

These bonds, which mature in three equal parts as the expiration of five, ten and fifteen years, were recently sold by the banking syndicate at public offerings at prices slightly under par. The passing of this check through the clearing house will involve an unusual shifting of funds, which will be reflected in next Saturday's bank statement.

The Kaiser on the Job

Wherever there is a big drive on, likely to cost thousands of lives, there is the Kaiser skulking and flapping about safely behind the lines, like an obscene vulture screaming over the coming slaughter. What a drill place is Potsdam, when there is a show on such as that at Verdun! When the Kaiser alights behind a German line, the men may prepare to make their will, and say good-bye. Production and Thrift

GROWING CROPS ON STUBBLE LAND IN 1916

The Empire's Demands for food are greater this year than last. Less summer-fallow and less fall ploughing than usual in 1915 make it necessary that the farmers of the Prairie provinces in 1916 shall sow extensively on stubble land

MR. J. H. GRIDDALE, Director, and the Superintendents of the Dominion Experimental Farms, urge the following upon the Farmers:

STUBBLE LAND OF FIRST CROP AFTER FALLOW

Burn stubble thoroughly as soon as surface is dry. Fire about noon time when steady wind is blowing. Cultivate at once about two inches deep, then sow the wheat and harrow immediately after the seed is in. If stubble is too light to burn, harrow first, then cultivate, seed, and harrow again. In Eastern Saskatchewan sow 1½ bush. per acre; in Western Saskatchewan 1½ bush. On light soils and dry lands sow ¾ bush. less.

STUBBLE LAND OF SECOND CROP AFTER FALLOW

Usually this land should be summer-fallowed, but this year much of it must be in crop. Burn stubble if possible. This may be helped by scattering straw freely over the field. Wrap old sacks about the end of a 4-foot stick. Dip in gasoline. Set on fire and shake on straw and stubble. Carry gasoline in open barrel will do better than wheat. If shoe drills are used plough instead of cultivating. Plough, cropping land should be summer-fallowed every year.

STUBBLE LAND OF THIRD CROP AFTER FALLOW

Do not sow to grain, but summer-fallow. Baited one year spring labour on other stubble land and thus make sure of crops in 1916 and 1917. Put your labour on land that is likely to give best returns.

SEED

Sow only clean, plump seed of tested variety. Use the fanning mill thoroughly and treat seed for smut. Have horses, harness and machines in good shape before starting work.

Saskatoon Board of Trade Sends Trial Packets to Government and Railways

In order to discover whether flax fibre seed suitable for the Irish market, the board of trade has sent trial packets to the United States department of agriculture at Washington, the Dominion department of agriculture at Ottawa, and the board of trade at the Canadian Pacific Railway. Following the proposals made to the board of trade by the department of agriculture for Ireland, Mr. Scandlers got in touch with the Washington government, the Dominion government, and the C.P.R. and all have replied expressing their willingness to make tests to this end.

"We intend to carry out several different experiments in flax and also make for fibre purposes" and will be glad to co-operate with you," said the letter received from the C.P.R.

Flax production in Western Canada has been given much attention by the board of trade, who have been untiring in their efforts to have the industry placed on a working basis in this part of the Dominion. Following the discussion of the matter that rose from the board's broaching the subject, the Dominion government intimated that they were about to add a flax branch to their experimental system of the department of agriculture.

The seed sent out by Mr. Scandlers is of the highest quality Russian variety, and the contentment of the board is that, owing to the similarity of climatic conditions in Russia and the part of the west, no difficulty should be experienced in producing flax and hemp.

Owing to the crude methods of cultivation employed in Russia, the cultivation and production of flax entails considerable labor, but it is felt that, with the more up-to-date farming methods of this country, the difficulty may be overcome—Saskatoon Star.

A Relief Train Eight Miles Long

Loaded With Flour This Train Would Sustain Half a Million Belgians One Month

When the Belgian relief committee at Montreal cast up its accounts for the 13th of May last, and made a recapitulation of the goods sent to Belgium it was found that \$600,000 in grain in cash by Canadians had been sent in Canada, and had purchased sufficient food, wheat and flour to fill over 250 freight cars.

In addition to this the gift of the various provinces of Canada, clothing, food products, wheat and flour made up a total of 1,031 cars, which, coupled together would make a train eight miles long.

Nova Scotia led in the quantity of food and clothing given. The donations of this province filled 273 freight cars. Ontario came second with 154 cars. Other provinces gave as follows: Quebec, 63 cars; Manitoba, 23 cars; Alberta, 37 cars; Saskatchewan, 13 cars; British Columbia, 21 cars; Prince Edward Island, 9 cars.

The needs of Belgium have increased tenfold since the Belgian Relief Committee made the shipment mentioned above. The new effort is being made by the committee to meet this supreme hour of need in Belgium, and an even more hearty response than was given last spring.

If, however, an equal number of cars are loaded this year, and each car contains 400 bags of flour, or the equivalent in wheat, more than a million of the seven million people of Belgium will be given sustenance for one month.

Minard's Liniment Cures Dandruff. Remarkable Heresim of Italian Airplane. Details now made public concerning the recent Italian air raid on Larch reveal the heresim of Italian airplane.

On his return journey Capt. Salomone's machine after a most successful mission of the Italian aeroplanes. He was severely wounded in the head and temporarily blinded by his own machine. Two other officers aboard the aeroplane, one of whom was Lieut. Col. Barbiere, were killed outright.

Despite the difficulty of steering, the bodies of his dead comrades having fallen over the lava Salomone refused to surrender. He succeeded in returning and landed at Talmara.

Salomone is now recovering in a hospital. A medal has been awarded to him for valor.

An Excellent Remedy For the Children

Mrs. Laura Jackson, Brantford, Ont., writes: "I have found Baby's Own Tablets such an excellent remedy for children that I have no hesitation in recommending them to all mothers." Thousands of mothers who use the same thing concerning the Tablets. One of our mothers has used them for years and nothing else. They are for sale at all druggists or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Will Recognize Volunteer Corps

This Will Bring 400,000 Men Under Control of the War Office

The British Government has decided to grant official recognition to all forces affiliated with the Volunteer Training Corps under the volunteer act of 1863.

This step will bring the Volunteer Training Corps, which contains between 300,000 and 400,000 men, under the control of the War Office for home defence employment, thereby relieving regular troops for more active service.

Mount Cavell Will Honor the Martyr

Government Has So Decided, Selecting Picturesque and Rugged Peak in Rockies

Canada has officially decided to honor the martyr Mount Cavell by selecting a picturesque and rugged peak in the Rockies, on the fringe of Alberta, after the hero's death.

Mount Cavell is a snow-capped, outstanding peak, more than 11,000 feet high, situated fifteen miles south of Jasper, at the junction of the Whirlpool and Athabasca Rivers, and west of the Whirlpool River. It is visible from the railway, and has heretofore been mistakenly known as Mount Gellie, which is not visible from Jasper, but lies farther west on the continental divide. Professors W. E. Howard and A. Munro of the British Alpine Club attempted to climb Mount Cavell in 1913, but failed, owing to unfavorable weather.

Professor Holway and Dr. Gilmore, two United States climbers, succeeded in the recent season.

A number of "Mount Cavells" have been mentioned in the newspapers for months past. These were speculations and incorrect. The mountain will be known as Mount Cavell, and the matter will be announced by the Geographic Board in the near future.

Lame Back Strengthened, Stiffness Taken Right Out

Was Relieved in an Hour, and Cured Over Night

At lame back? Quite unnecessary. All you have to do is to rub on Nerviline. It's simply a wonder for curing lame backs after one rubbing. It's the most powerful cure for aching back faster than Nerviline. Write to Arthur Koop of Lower Chelsea, N.B. "I caught cold and was so prostrated with pain I could not bend over. I had the painful period rubbed thoroughly with this grand liniment. At once the pain disappeared. The lameness was rapidly reduced and in an hour I was able to be about my housework. I was rubbed again before retiring, and awoke as usual in the morning without a sign of my back trouble."

How to Read the Newspaper. How many undergraduates are there who can trace clearly and concisely even without going much into detail, the main developments in the war? How many can talk intelligently on European relations during the war and produce any real facts to back up their statements? How many have at their tongues' end much other important and useful information? With the college man the remedy for his lack of perspective is not more time spent with the newspaper, but the application to his newspaper reading of the same principles he applies to reading done in connection with a college course.

Rheumatism and Lumbago

Mr. Wm. Parker, 105 Cayuga street, Brantford, Ont., tells in the following letter of his remarkable experience with Dr. Chase's Kidney-Liver Pills—"My doctor treated me for some time for Sciatica, Rheumatism, Lumbago, but to no purpose, for I had to lay off work. The visiting officer of Sick Benefit called to see me and advised the use of Dr. Chase's Kidney-Liver Pills, stating that he had been cured of the same trouble by their use. I asked the druggist about them and he recommended them highly. Not being satisfied with this, I went back to my doctor, and when he said they were good I began their use. The promptness with which they relieved the action of the kidneys and bowels was wonderful, and it was not long before I was rid of all my trouble. I had awful sharp pains in the lower part of my back and left hip, and was so bad that I could only walk by hanging on to a chair or the wall. My wife had to lace my shoes. Only those who have had this ailment can realize the way I suffered. I am writing this letter to let people who have my trouble know of these pills. You are at liberty to use this letter, and if anyone interested will call or write to me I will give every detail."

When you have pains and aches put Dr. Chase's Kidney-Liver Pills to the test. By enlivening the action of liver, kidneys and bowels they cleanse the system of all poisons, and thereby remove the cause of rheumatism, lumbago and other painful diseases.

Germans Lose One Million Men

Official Lists of Casualties Are Now Being Deliberately Falsified

The German official casualty lists give a total of 681,768 dead to January 31, 1916. The average delay between the death of a German soldier and the appearance of his name on the official list is from four to six weeks.

The above figures, therefore, can hardly include casualties later than December 31, 1915.

To this figure must be added a certain proportion of missing. The number of prisoners is precisely known to the allies, and after deducting a small percentage for desertion, the number of dead in the German lists of missing is not less than 160,000, making a total, derived from the Germans own admission, of 841,768.

That is not all. Apart from the lists published by the German government, the French authorities have amassed a large body of evidence based on the average deaths per 1000 mobilized men, a given date. These prove conclusively that the German official lists are deliberately falsified or intentionally inadequate.

In the early months of the war these private and official lists very nearly tallied, but ever since January, 1915, there has been a marked discrepancy. The official lists give an average of 20 per cent less than private lists. This represents a difference of over 200,000 dead.

It is a matter of mathematical certainty that the German empire has lost over one million dead alone in the end of last year.

Supt. Walker has, through reason of health, resigned his position at the C.P.R. at Lethbridge. Acting-Superintendent McArthur has been promoted to superintendent at Kenora, and Mr. Cotterill, of Vancouver, succeeds Mr. Walker at Lethbridge.

The spotter who was landed by the authorities at Coleman for a breach of the liquor license act, was last week fined \$100 and costs. We understand that the individual who evidently found favor with the license department because of his duping qualities, did not produce the necessary goods, and had to be acquitted.

The British Navy today is approximately twice as strong as the combined fleets of Germany and Austria, while the Russian combination has about double the sea fighting force of the United States, according to information in the possession of the U.S. Navy Department. It is said that the French Navy is from 15 to 25 per cent. stronger than the American, according to latest information.

The Shackleton antarctic auxiliary exploration ship Aurora is reported as having reached Port Chalmers, New Zealand, safely, in tow of a New Zealand government tug. The Aurora was forced to leave the antarctic regions because of serious damage. The Aurora is one of the few remaining wooden sailing vessels, and prosecuted the fishery from Newfoundland for over twenty five years.

Corpl. Lewis, who has done efficient service in connection with the Royal North West Mounted Police at Blairmore for about three years, has been transferred to Brocket, and has moved his family to their new home. Corpl. Kistritz, formerly of Lundbreck, but later of Pincher Creek, succeeds Corpl. Lewis at the local detachment, and arrived here on Monday of this week. Some little changes are being made at the local detachment in order to provide an office for the inspector and accommodation for the corporal and two constables.

An exchange says: Alcohol, it seems, is used in the manufacture of explosives. Now we know what "going on the bow" means.

Someone said that the 13th Battalion is mad because Martigney's horse has been acquired as a mascot by the 192nd. Don't worry, 13th, there are just as good fish in the sea as ever were caught!

Chas. Fuchas was fined \$50 and costs before Inspector Jonget on Wednesday for having sold liquor to a drunken man. We understand that the license of Mr. Fuchas' hotel at Hillcrest has been forfeited.

The French have ready for use their new 16-inch guns which are able to fire more devastating explosive shells than the German 17-inch gun. Two giant shells for this gun, exhibited in Paris, stand five and one-half feet high and weigh more than a ton.

The London (Eng.) Sunday Pictorial says: "I was told yesterday of a certain battalion that has been training at 'somewhere' for over a year. The men are thoroughly efficient and fit, but while other battalions with not half the training keep leaving for active service this one is left severely alone. It is beginning to dawn on the officers that they have been forgotten entirely by the authorities. Stranger things have happened."

Two of Blairmore's leading lawyers are said to be touring the province in the interest of prohibition, and have already been in Calgary, where strong drink was roughly handled. They believe that the only way to stop the liquor traffic is to start at the root and do away with the booze.

Capt. Alfred Thomas Shaughnessy, second son of Lord Shaughnessy, president of the Canadian Pacific, has been killed in action somewhere in France. Capt. Shaughnessy was born in Montreal in 1887, and was educated at Abington and Bishops college schools and McGill university. He joined the Victoria rifles at Montreal in 1910 and enlisted for active service with the 60th battalion Canadian overseas, in June, 1915. His brother Capt. McDermid is also connected with the 60th as second in command of Company "A". Another brother, Captain the Hon. William J. Shaughnessy, is adjutant of the Irish rangers, the 199th battalion. The dead captain was a great favorite with all who knew him.

It is quite true that some of the methods employed by spotters of the liquor license department to obtain convictions under the act are somewhat shady, and the experience of the detective at Blairmore will be a lesson. Why a man should make himself a criminal to catch a criminal is beyond comprehension, especially when the crime is no worse than those which come under the ken of the license department.—Lethbridge Herald.

A guy came into our editorial office the other day and passed this one on us when we weren't looking:

"I hear that you can't run Ford cars in Seattle over four miles an hour."

"Why?" said we, falling for the horse-riggle.

"They'll get pinched for 'rushing the can' if they do," said the guy. Then he went off.
